Privacy and security

Google Chrome may use web services to improve your browsing experience. You may optionally disable these services. [Learn more](#)

Use a web service to help resolve navigation errors

Use a prediction service to help complete searches and URLs typed in the address bar

Use a prediction service to load pages more quickly

Automatically send some system information and page content to Google to help detect dangerous apps and sites

Protect you and your device from dangerous sites

Automatically send usage statistics and crash reports to Google

Send a "Do Not Track" request with your browsing traffic

Use a web service to help resolve spelling errors
Smarter spell-checking by sending what you type in the browser to Google

Manage certificates
Manage HTTPS/SSL certificates and settings 

Content settings
Control what information websites can use and what content they can show you 

Clear browsing data
Clear history, cookies, cache, and more
